GOV. TILDEN'S idea of living within ones income is peculiar, for he conveys the impression the government has not done so. Yet during the last eleven years the government has not only paid all the interest on its debt, but redued the principal over \$426,000,000, or over 39 1-2 millions per year. THE State of Missouri, which is in the hands of the old seccessionists, has issued to every former slaveholder a \$1,000 certificate for every slave, payable when the General Government will pay it, and these certificates are being saved up as carefully as money to await the election of Tilden and the introduction of his "Reform" policy, when they expect to have their bonds

A NEW YORK Herald reporter has had an interview with President Grant and from the report we gather that so far as of Grant wishing General Bris tow to retire from the Treasury was concerned, such was not the case. Bristow at three different times desired to tender his resignation but each time was prevailed upon by the President to remain, and his final resignation was from his own motion.

THE Courier brought out its rooster to crow over the result in Kentucky and Alabama, as an exhibition of what "the Solid South" will do. The result in Kentucky was expected. The result in Alabama was brought about by expatriating three fifths of the colored voters. The solid South means the old Confederacy that failed to overthrow the Union in the field, but now hopes to accomplish the same result through the Legislative power. Such is Democratic "Reform."

THE Sandusky Register quotes the following paragraph from the Southern Catholic as logically defining the posi-

It says that 'all Roman Catholics are by choice or necessity external to the Republican party, and it is incredible to believe that any Catholic who has a modicum of self-respect and love for his church can co-operate with that party. If hitherto he has done so, the me is at hand to abandon an organization which is confessedly and without longer disguise at war with our holy religion.

GOV. TILDEN in his letter proposes is a way out of our financial difficulties to reform the public debt so as to save \$17,000,000 interest per year, and his supporters point to the proposition as a proof of his financial ability. The Republican have already saved by refund ing \$31,000,000 of the annual interest charge, and besides have wiped out \$426,000,000 of the public debt. If continued in power they will not only save all Tilden proposes but by paying a large amount of public debt, wipe out the full amount of interest on that.

SAMMY Cox tried to make a little political capital in the House one day last week, by referring to the withdrawal of Godlove Orth, as the candidate of the Republicans for Governor of Indiana. When reminded that four Democratic Judges of that State had been accused of stealing while in offlice and yet were re nominated, but after being re nominated had to be withfrawn because of the intense feeling tmong the people, Sammy subsided, and Holman expressed the opinion that a few more Sammie's would ruin the best of prospects.

A SPECIAL election was held for councilman in the 15th Ward of Cleveand, last week, and the Republicans acceeded in carrying it by 48 majority although last fall they carried it by 271 majority, and last spring 260. The Bohemians have departed. Seneco Advertiser. That is the usual "honest ancounce-

ment." The election was a special one. There was but one candidate, a Republican, and Democrats and Republi cans concluded there would be no contest. When, however, the Democracy saw that there were but few Republi eans voting, they gathered together their clans, sprang a candidate at a late our and by forcing the voting thought to elect. The republicans rallied, how over, when they saw the trick, and beat them at it. Had there been a contest from the first, the old ward would have rolled up its last fall's majority, as it will do in October and November.

GOTTLEIB ORTH, the Republican andidate of Indiana, for Governor, proud. has withdrawn himself from the ticket because honest Republicans said they would not vote for him. As every little helps to conciliate the few he got out of the way. His offence was not so much in swindling the Venzuelian covernment as being caught at it. This is no objections to the leaders, but the rank and file can only take it when sugar-coated. Good by Gottleib. Seneca Advertiser.

In withdrawing from the canvas Mr. Orth, not only shows his good sense, but his appreciation of what was due others. He was not forced from the ticket but considerately with-Indiana who were caught in dishonestly approaching nearly \$100,000 of the public money. After they were caught at the dirty trick, they were renominated by the Democratic State Central Committee who thought to white-wash them and force them upon the people, but they would not stand it, and the Committee that nominated had to withdraw them. The "rank and file" of the Democracy could not swallow these Judges even when "sugar conted" by a Democratic State Central

THE Democrats were caught in a net last week from which they were unable to extricate themselves. Scott Lord, a prominent Democrat from New York. introduced a preamble and resolution. declaring that all citizens are entitled to protection under the fifteenth amendment, and that, in the judgment of the House, all attempts, by force or had several important appointments

intimidation, to prevent the exercise of the right of suffrage should be condemned, and the guilty parties should receive prompt and effectual punishment. It would scarcely be believed that men determined on "reform," would hesitate upon the adoption of such simple and manifest truths, and especially the one in regard to the right to protection under the fliteentha mendment. Yet they did, and filibustered while several votes were taken, refus ing to vote, until Mr. Lord, went among them showing a letter from ome of Tilden's managers, advising uch a course when they at last ; i bied and passed the resolution by an almost manimons vote. And now they stand in the uncomfortable position of havng denied, through their papers and their orators' that any crimes against the colored citizens had been committed, yet admitting, in their character of Representatives, that such crimes have been committed, and that the perpetrators should be condemned and effectually punished. The way, however, that they protect colored citizens s exemplified in the recent election in Alabama, where three fifths of the negroes, were virtually disfranchised. "REFORM."

The Democratic House voted to pay he discharged Democratic Cierks three weeks salary beyond their term of ser vice, and Fitzhugh, who was "a bigger man than old Grant" for a time has applied for a similar remembrance. That's the kind of "Reform" you get from Democracy.

TILDEN ANSWERS.

Monday, August 7th being the day set by the U. S. Court for Tilden to file his answer to the suit brought by the St. Louis, Alton, and Terre Haut-Railroad Company, charging him with embezzling \$1,000,000 of said company's money, the defendant filed a partial answer only. Triden denies the charge, says the company was ben efited by his connection with it, that his transactions in bonds were not as a trustee but as an individual, and makes sundry other averments. Monday of last week, a large number of influential Turners assembled in Rochester, New York, for the transac tion of business perfaining to their societies. The Rochester Express, in reporting the proceedings, says a resolution was presented with frawing the support of the Turners of Western New York from the Zukunfl, the organ of the Turners, published at Indianapolis. The resolution was adopted almost unanimously, but two dissenting. Six Turners' societies were represented. The only fault with the Zukunft is that want over to Tilden and Hendricks. and that was too much for the Turners. NOT GOOD ON FIGURES OR TOO

Gov. Tilden was not happy in his ref-

HON, CHARLES FOSTER RENOM INATED.

The Congressional Convention for this District, as will be seen by proceedings elsewhere, has again re-nominated the Hon. Charles Foster, by acclamation, for Congress. There is that peculiarity attentions in repeated nomnations, of which few men can boastalways been nominated by acclamation. At the first the District was Democratic, having at the previous election chosen E. F. Dickinson, of Fremont, as its representative, and when the Republicans met in Convention at Monroeville, by common consent they fixed upon Mr. F. as their repre sentative, and by the same common consent nominated him by acclama tion. Two years later, an effort was nade to organize an opposition to him, out before the Convention assembled the opposition was withdrawn and he was again nominated by acclamation. His second term was even more satisfactory than the first, and two years ago he was again chosen as at the first. Since then his career has not been as satisfactory to many of his constituents as they could have desired, yet regard ng him as eminently suited for the poition, and the strongest candidate that could be presented to the district, all opposition was waived and he has again been declared the nominee by acclamation. As we said before, it is an honor of which few can boast, and of which the candidate may well feel

The nomination has been made, and now it becomes every Republican in the District to gird on his armor and get ready for the fight. Do not deceive yourselves with the belief that you can easily win the victory. The reliable soldier is he who foresees the danger and prepares to meet it. Do not delay your organization, but know your strength and improve it. The enemy is on the alert. He is vigorous, active, confident and determined. Do not miscalculate his strength or over estimate your own. Every inch of the drew. The case was different with the | ground will be e mtested, and every four Judges of the Supreme Court of stratagem will be resorted to to comyour defeat. Only vigilance prompt organization, unity and harmory will insure a triumph, and to this the candidate is entitled, at the hands of the organization which has for the fourth time demanded him as its candidate. See to it that your prempt organization is not neglected.

A TRAGEDY.

Last week Chicago was the scene of wild tragedy, when Mr. Hanford, principal of a High School was killed by Alexander Sullivan, Secretary of the Board of Public Works. As usual there was a woman at the bottom of the trouble. That woman was Mrs. Sullivan, a newspaper writer of considerable ability, a noted member of the Catholic Church, and an expert in political wire-pulling, as was also her husband. Mrs. S. exercised great influence upon the School Board, and named by the Mayor, and was so named. It remained for the Council to confirm. Hanford, who understood going on, went to Alderman Var Osdel and in confidence made a statement to him of charges which he could, prove and afterwards at Van Osdel's request annultred his statement to writing. At the meeting of Council which followed. Van Osdel and others reported against the confirmation of the appointees, giving some reasons for so doing and gave the name of his informant, or rather smalltted Hanford's statement. This was in the afternoon, and the charge was that Mrs. Sollivan made use of her position as a person who wielded Catholic and journalistic influence, to secure political appointment on the Board and in the schools Saliyan chose to regard it as an attack upon her character as a woman, and went home to supper burning to be avenged. He told the story to his wife, and she became as furious as he. They obtained a carriage and taking a younger brother of Mr. Sullivan with them started to hunt up Hanford, and "get satisfaction." They drove to Hanford's house, and there found the victim with his wife and children. Sullivan accested him and demanded a retraction. Hanford said he could substantiate the charges; Sullivan struck and knocked Hanford down, when a friendly hand parted them and the difficulty might have ended. But here the woman, infuriated, rushed into the melee, and with the younger Sullivan clinched Hanford, who to avoid striking the woman, shock himself clear, and started for the elder allivan, the friendly hand again interposed to keep the antagonists apart, but Sullivan drawing a revolver shot Hanford in the abdeasen belleting a wound from which death resulted. After the shooting Sullivan put his wife into the earriage and ordered her to drive home. He was taken into custody. A more cold-biooded and unparalled murder is not our coord, and the speedy conviction and langing of the culprit, should manifest to the world that there is yet left in Chicago some appreciation of the rights due to individuals and society. No morbid sympathy for a weman, as such, should be allowed to influence the feelings or warp the judgment, so as to pulliate the offence. When won a coter the arena as men do, they must expect to be spoken of as men, and it does not follow that when so speken of their virtue is assail. ed, or their womanly attributes outraged. A women politician may prove as corrupt and scheming as a man, and go to the same length to attain her obicet but it does not therefore follow that when she is spoken of as man would speak of man in such cornetion, that she is assailed as a fewd woman. for the husband, who, permitting his wife to occupy such nosition, is so morbidly sensitive as to expect her to be held sacred in the public eye, while ngaged in acts which would subject men to censure and exposure. His net is murder, cold blooded and premeditated, and he should suffer for his
